The TengTools 26" PRO35™ stack tool kit TKS26R418F in matte red is a 418-piece tool kit curated to serve a broad spectrum of industrial applications. This 2-tier tool stack integrates the TSW26R7 roller cabinet with seven drawers, and the TST26R4 tool chest with four drawers that together provides a comprehensive storage solution. The tool stack measures 680 mm in width, 460 mm in depth, and 1340 mm in height with castors mounted and fits comfortably in various industrial settings. The roller cabinet features seven drawers, including five with a height of 75 mm and two taller drawers at 154 mm, each supporting up to 40 kg. The tool chest is characterised by its folding front with the TengTools logo and has four drawers – three 50 mm high and one 75 mm high. The tool chest is equipped with recessed side handles. Each drawer is fully extendable and equipped with ball bearing slides for smooth operation and equipped with a noise-reducing and protective EVA mat. It comes with 7 of the available 11 drawers utilized which leaves space for additional tools, allowing for adaptability and expansion. The tool kit encompasses an array of essential tools for industry professionals, including 1/4, 3/8, 1/2 drive sockets, bit sockets, ratchets, impact tools, combination spanners, screwdrivers, bits, T-handle hex & tx keys, pliers, pry bars, chisels, and torque wrenches. To minimise the risk of loss or misplacement, the tools are systematically organised in precision-cut modules of high-density EVA foam. For ease of movement, the tool kit has a wheel configuration consisting of two 5" braked swivel castors and two 5" fixed castors, complemented by a comfort handle on the side of the roller cabinet. Each unit features a 3-digit combination lock for secure storage. The stack system's durability is assured by its construction from heavy gauge top-quality steel treated with a 5-step phosphate-free rust prevention process offering corrosion resistance and longevity. The inclusion of a paper holder (TCA08) enhances the functionality, and fixing brackets (TCF06) further improves the stability of the storage unit.
